# CONTENTS FOR

# FLUID MECHANICS-Soviet Research

## Volume 11, Nos. 1-6, 1982

## NUMBER 1

1 Analytic Solution for Two-Dimensional Steady-State Flows of a Stratified Fluid
V.M. Belolipetskiy

7 Flow Structure in Pipe Elbows
A.V. Tananayev, N.G. Gontsov and O.A. Marinova

14 Investigation of Critical Discharge of Superheated and Wet Steam via Sharp-Edged Orifices and Turbine Labyrinth Seals
T.I. Sabrin and O.G. Sapunov

21 Effect of Droplet-Size Distribution on Two-Phase Flowrates in Turbines
G.A. Filippov, L.I. Seleznev and L.A. Belyayev

27 Vortical Structures and Droplet Motion in Low-Pressure Stages of Turbines
I.I. Kirillov and G.G. Shpenzer

36 Two-Phase Couette Flow
L.A. Ignat'yevskaya

41 Turbulent Diffusion of Particles in Carrier Gas When the Directions of the Phase Flows are not the Same
A.A. Shrayber

50 Investigation of Particle Detachment by a Flow
V.G. Pokusayev, V.A. Yermakov and V.V. Bondarik

56 Motion of Particles in a Turbulent Two-Phase Flow
Yu.I. Daskal

61 Concerning Planar Waves and the Disintegration of an Arbitrary Discontinuity in a Two-Phase Gas-Liquid Flow
V.N. Stepanenko

68 The Doppler Effect in Critical Two-Phase Flow
Ye.V. Stekol'shchikov (Posthum.) and Yu.P. Alekseyev

72 Adiabatic Critical Two-Phase Flow in the Long Ducts
V.V. Fisheno, A.V. Alferov and V.Yu. Kaminskiy

77 The Dynamics of the Temperature of a Heat-Transfer Agent That Flashes Upon Rupture of a High Pressure Vessel
B.A. Dement'yev, V.D. Kuznetsov, A.P. Skotnikov and B.A. Ionov

86 Analysis of Data on the Flowrate of Variable-Parameter, Two-Phase Flow (from a Leak in a High Pressure Vessel)
B.A. Dement'yev, B.A. Ionov, V.D. Kuznetsov and N.A. Nikol'skaya

91 Effect of the Reaction Force of the Phase Transition on the Development of Convective Instability in Film Condensation on a Vertical Wall
V.M. Budov and I.A. Shemagin

97 Formation of a Film in Two-Phase Flow over a Plate
Yu.I. Daskal

104 Experimental Values of the Average Variables in a Flowing Liquid Film
M.Ye. Deych and I.P. Tetera

109 Experimental Study of the Variation in the Total Pressure along the Axis of a Submerged Liquid Jet Discharged into a Cavitating Liquid
A.G. Koval'nogov, V.G. Omel'nitskiy and V.P. Rodionov

115 Condensation of Steam in Capillaries
Ye.S. Abbasov, L.I. Arkhipov, A.M. Baklastov and A.A. Ivanov

120 Calculation of Irreversible Losses Incurred during the Motion of Wet Steam under Significant Gravity Forces
M.A. Gotovskiy, P.L. Magidey and N.D. Agafonov

126 Theory of the Electrochemical Method for Velocity Measurement
P.I. Geshev and A.I. Chernykh

## NUMBER 2

1 Experimental Study of Axisymmetric Turbulent Flow of an Incompressible Fluid over a Cylinder
E.J. Adomaitis

19 Effect of Variability of Physical Properties and Free-Stream Turbulence on Skin Friction on a Cylinder in Longitudinal Flow
J.-E.J. Adomaitis and B.A. Česna

30 Hydraulic Drag of Sphere-Filled Cylindrical Channels
G.B. Zdanavičius and V.J. Survila

38 Effect of Flow Turbulence and Channel Blockage on the Flow Pattern over a Cylinder in Crossflow of Water at Critical Re
A.A. Žukauskas, P.M. Daujotas and V.S. Ilgarubis

48 Statistical Analysis of Vibrations of Tube Bundles, Induced by Crossflow of a Viscous Liquid
V.J. Katinas, K.K. Lukoševičius and A.A. Žukauskas

56 Vortex Shedding and Velocity Fluctuations in Staggered Tubes Bundles in Crossflow of Air
V.I. Katinas, A.A. Markevičius and A.A. Žukauskas

66 Hydraulic Drag of Tube Bundles vs the Angle of Attack of a Viscous Fluid
V.J. Katinas, E.E. Perednis and A.A. Žukauskas

75 Turbulence, Heat and Mass Transfer in Very Stably Stratified Liquids
G.I. Barenblatt
96 Kinetics of Boiling and Bubbling
I.M. Fedotkin, A.V. Gulakov and S.V. Romanovskiy
102 A Numerical Model of a Horizontally Nonuniform Boundary Layer for Calculating the Properties of the Evaporation Fog
B.N. Yegorov and Ye.D. Nadezhina
110 Drag and Heat Transfer in Bubbly Flows
B.G. Ganchev and V.A. Nizovtsev
117 Supersonic Gas Flow and Heat Transfer in the Shadow Region of a Sharp-Nosed Cone
A.K. Ivanov
125 Possible Boundary Conditions in a Model of the Structure of the Wave Sublayer
V.V. Simonov
136 Mathematical Model of the Vortical Flow of an Air Charge in the Cylinder of a Diesel Engine
V.N. Zakrzhevskiy, O.N. Lebedev and S.P. Rudin

# NUMBER 3

1 Local Two-Phase Flow in a Horizontal Pipe
P.I. Geshev and P.M. Krokovnyy
14 Jet Flow Over a Moving Wall
E. Bekturganov, K.E. Dzhaugashtin, Z.B. Sakipov and A.L. Yarin
25 Investigation of the Pore-Size Distribution in Capillary Porous Metal Fiber-Based Materials
A.P. Nishchik and M.G. Semena
31 Estimate of the Error in Measuring the Voids Fraction by the Acoustic Sounding Method
V.A. Makhin, V.I. Mel'nikov and V.A. Shatrov
36 The Entropic Efficiency of Compressors and Turbines
V.I. Babarin [dec] and V.M. Mikirtichan
48 Two-Phase Flow Modes in Slot Channels
A.Ya. Cherkas
54 Numerical Analysis of Two-Phase Flow in an Axisymmetric Channel with Correction for the Actual Ablation of that Channel's Walls
R.V. Rafikov, E.G. Zaulichnyy, A.D. Rychkov, V.A. Tenenev, V.Ya. Ivanov and I.V. Nefedov
60 Turbulent Diffusion of Particles in Gas Flows in Which the Gas and Particles Move in Different Directions
A.A. Shrayber
70 Swirl-Combustion Chamber with Shaped End Walls
G.I. Gorelov and A.A. Zhirnov
75 Effect of Cooling-Gas Injection Arrangement on the Effectiveness of Film Cooling of the Walls of a Plasma Gun
M.F. Zhurkov, I.M. Zasypkin and I.I. Mishne

85 Comprehensive Determination of Geometric and Mass Transfer Parameters of Porous Materials
P.P. Lutsik and D.P. Litevchuk
92 Absorption in a Film Flowing Down an Adiabatic Wall
A.N. Burdukov, N.S. Bufetov and A.R. Dorokhov
97 Heat and Mass Transfer in Film Absorption
V.Ye. Nakoryakov, N.S. Bufetov and N.I. Grigor'yeva
116 Desorption of Poorly Soluble Gas from Falling Wavy Liquid Films
V.Ye. Nakoryakov, B.G. Pokusayev and S.V. Alekseyenko
131 Formation and Travel of Metal Droplets in the Course of Electroslag Remelting
O.A. Gerashchenko, Yu.M. Kamenskiy and A.M. Pal'ti
136 Experimental Study of Collisions between Rapidly-Moving Droplets in Gas Flows
A.M. Podvysotskiy, A.A. Shrayber and B.N. Maslov

# NUMBER 4

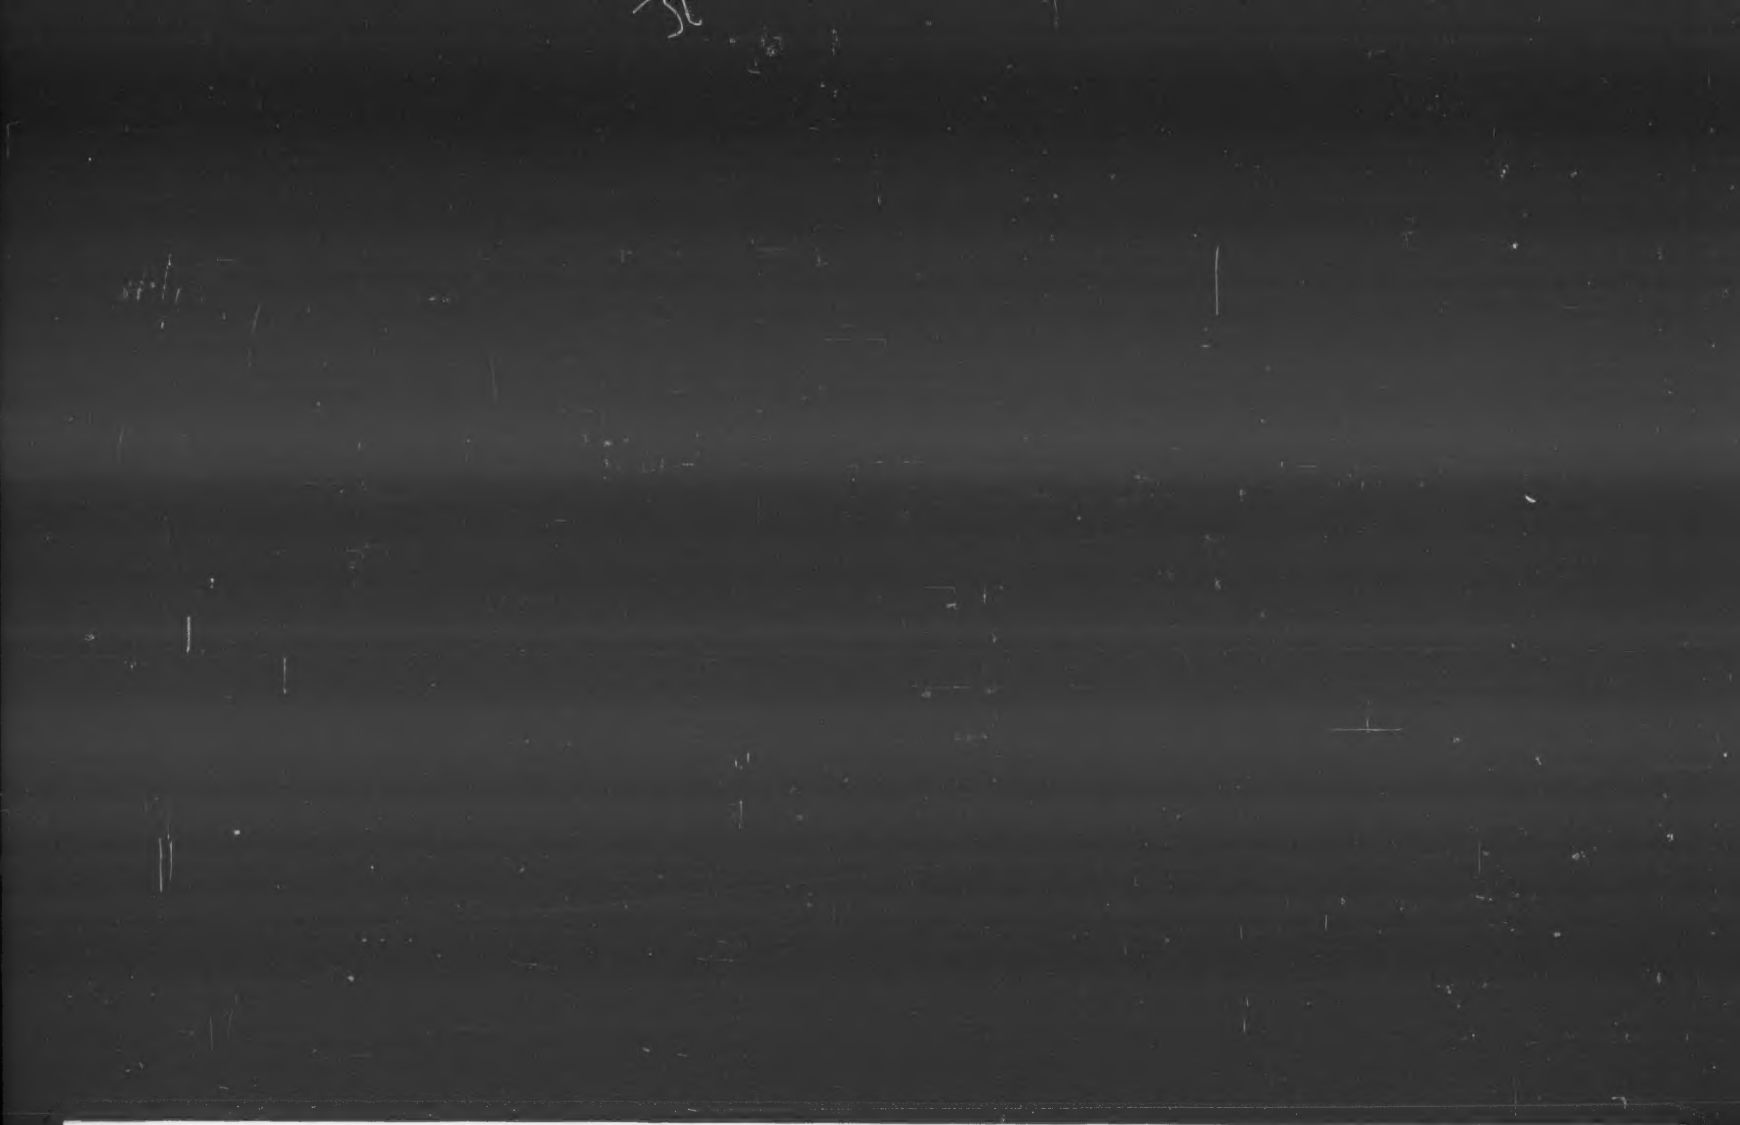
1 Optimization of Horizontal Tube Arrangement in Fluidized Beds
G.A. Kirillov and G.G. Kuvshinov
8 Investigation of Mass Transfer between Parallel Streams in a Two-Cell Rod-Bundle Simulator
V.A. Yefimov, V.L. Mukhavhev, B.M. Korol'kov and Ye.V. Sakovich
15 Concerning a Mechanism of Excitation of Vibrations of a Circular Cylinder in Crossflow
V.I. Merkulov
21 Theory, Simulation and Design of High-Pressure Jet Vacuum Pumps
A.K. Rebrov
35 Thermocapillary Breakdown of Falling Liquid Films Containing Surfactants
A.R. Dorokhov
41 An Experimental Investigation of the Stability of Poiseuille Flow
V.V. Kozlov and M.P. Ramazanov
47 Steady-State Flow of a Ponderable Liquid with a Free Surface in a Variable-Width Channel
A.A. Dorfman, V.S. Panratov and G.I. Yagovdik
53 The Thickness of the Viscous Sublayer in a Turbulent Boundary Layer
Ye.U. Repik and Yu.P. Sosedko
66 Experimental Study of Removal of Very Fine Droplets from Compressed Gases in a Centrifugal Precipitator
A.N. Ankilov, A.R. Dorokhov, V.I. Koren'kov, A.S. Kormin, K.P. Kutsenogiy, S.A. Shutov and A.I. Yavorskiy

74 Heat and Mass Transfer in Swirled Foam Beds
A.P. Burdukov, M.A. Gol'dshtik, V.I. Kazakov and T.V. Li
98 Investigation of Nonequilibrium Phenomena by Means of Molecular Beams
A.A. Vostrikov, S.G. Mironov and B.Ye. Semyachkin
121 A Quasi-Linear Model of Heat and Mass Transfer in Tray-Column Rectification of Multicomponent Mixtures
Ye.A. Yerkayeva
132 Barotropic Instability of Two-Dimensional Non-Divergent Flow in the Atmosphere
K.A. Islamov
140 Some Models of the Interaction of a Macroturbulent Component with the Mean Flow
M.Sh. Eykher

## NUMBER 5

1 One Experimental Arrangement for Investigating the Hydrodynamic Interaction of Particles at Low Reynolds Numbers
V.N. Gusev and Yu.V. Nikol'skiy
13 Constraints on Averaging the Total Pressure of Nonuniform Gas Flows
I.I. Mezhirov
18 An Ideal Wave Propeller
L.G. Filippenko
23 Investigation of the Loss of Momentum of a Slot Jet Flowing along a Curved Surface
Yu.G. Zhulev and V.A. Makarov
30 Effect of the Gas Flow on the Relationships Governing the Breakup of Droplets in Laval Nozzles
A.A. Shrayber, A.M. Podvysotskiy and B.N. Maslov
40 Crevice Erosion and the Thermohydraulic State of Slots in Joints
V.V. Pryakhin and O.O. Mil'man
47 One Mathematical Model of Turbulent Liquid Flow
K.E. Plokhotnikov
63 Equation of Unsteady Flow as a Basis for Extrapolation of Stream Flow Data
I.F. Karasev and V.V. Kovalenko
70 The Mechanism of Breakup of the Ice Cover of Rivers and Canals
I.Ye. Kozitskiy
83 Laboratory Studies of the Effect of Release Waves on the Breakup of the Ice Cover in the Tailwaters of Hydroelectric Power Plants
G.I. Bolotnikov

89 Analysis of Descriptive Statistics of the Air-Pollutant and Meteorological-Parameter Concentration Fields in Heavily Industrialized Cities
A.V. Primak, V.S. Travkin and A.N. Shcherban'
101 Dimensional Analysis of the Equations of a Multiphase Atmosphere
V.P. Ovcharenko and E.B. Trofimova
140 New Experimental Data on the Spray Field above Wind-Driven Waves
R.S. Bortkovskiy and D.F. Timanovskiy

# NUMBER 6


1 Investigation of Vortex-Chamber Aerodynamics
A.V. Antsupov and M.V. Mironov
10 Hydrodynamics of a Vortex Chamber with Hyperbolic End Covers
E.P. Volchkov, A.P. Kardash and V.I. Terekhov
22 The Concentration and Temperature Fields in the Flow of Liquid over a Chemically Reactive Particle
A.D. Polyanin, V.D. Polyanin and Yu.A. Sergeyev
32 Experimental Study of the Effect of Wall Heating on the Transition and Stability of Supersonic Boundary Layers
V.I. Lysenko, A.A. Maslov and N.V. Semenov
44 Certain Aspects of Numerical Simulation of the Flow of Liquid over a Wavy Boundary
V.V. Simonov
54 Investigation of Rates of Erosion of Banks of Gravel-Lined Channels
V.A. Bazilevich
60 Parametrization of Phase Transitions of Water in Equations of Deep Convection
A.N. Vul'fson
84 Simulation of the Quasi-Steady Planetary Boundary Layer of the Atmosphere under Unstable Stratification
Ye.D. Nadezhina
98 Computation of Improved Nomograms for Determining Drag, Heat and Moisture Transfer Coefficients above the Sea Surface
N.Z. Ariel and A.V. Murashova
114 Spectral Methods of Solution of Nonlinear Forecasting Problems
S.A. Mashkovich
